SUMMARY

I am a web developer with almost 8 years of experience which 4 years of that were on web security. I'm experienced in end-to-end development from server setup to design, development, and deployment. I'm seeking a position as a full-stack web developer or similar opportunity, where I can expand my technical knowledge and experience new challenges.

I have a good relationship with my colleagues, customers, and clients. I'm curious, flexible and self-starter with minimal supervision with good communication and cooperation.

SKILLS

- **Web Development:** PHP, Laravel, Symfony, NodeJS, ReactJS, HTML, CSS, Javascript, Sass
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis
- **Linux:** Basic Linux administration and Bash scripting
- **Other:** Docker, Git, Gitlab CI, API, Nginx, Python
- **Soft Skills:** Creativity, Responsibility, Teamwork, Time management, Communication, Problem solving, Tolerance and Patience

EXPERIENCE
